KLEUREN LICHT

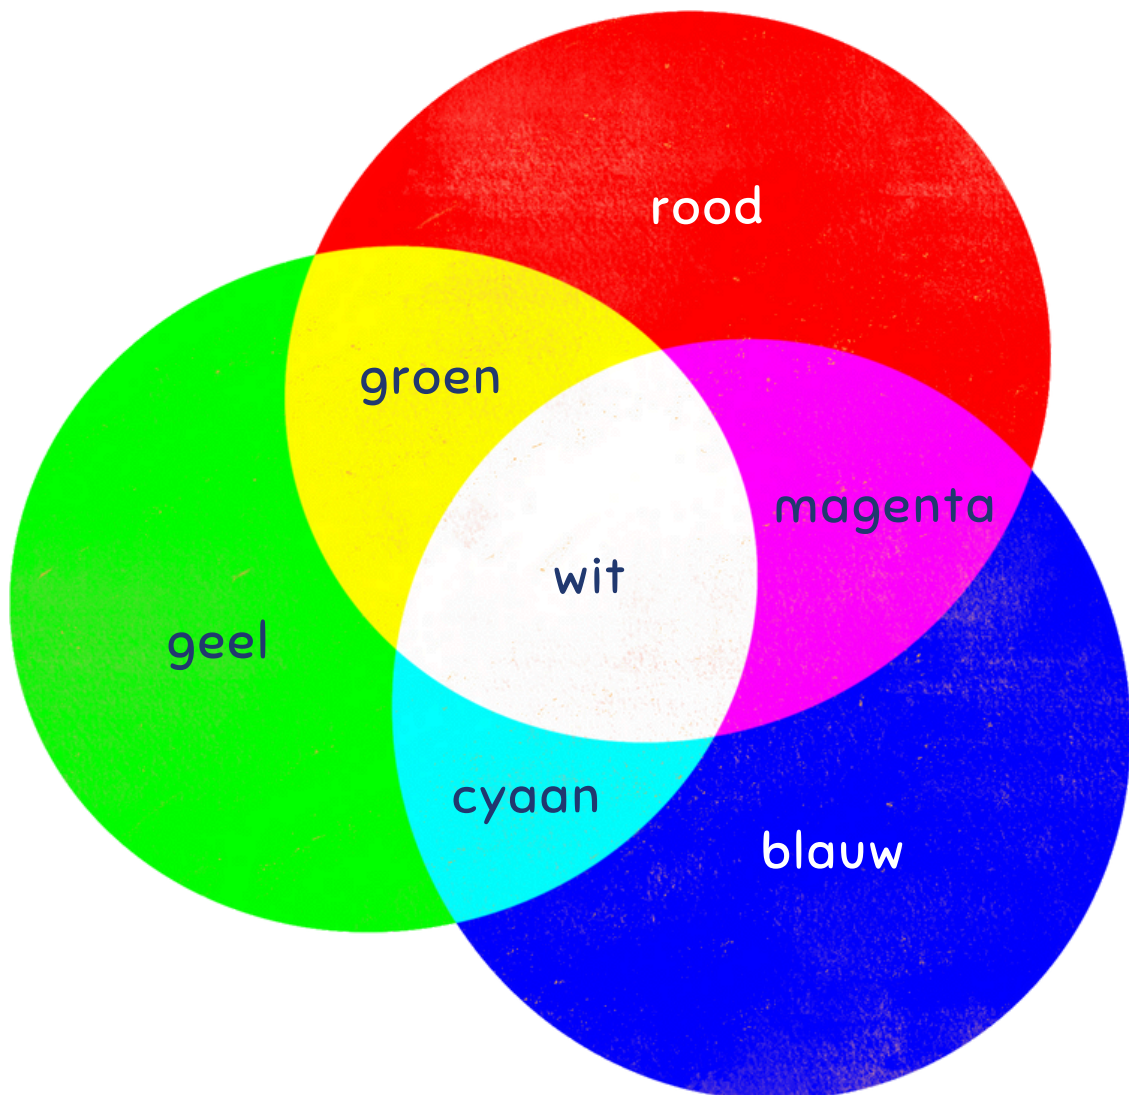

Licht heeft andere primaire en secundaire kleuren dan als pigmenten.

De primaire kleuren van licht zijn rood, blauw en groen.

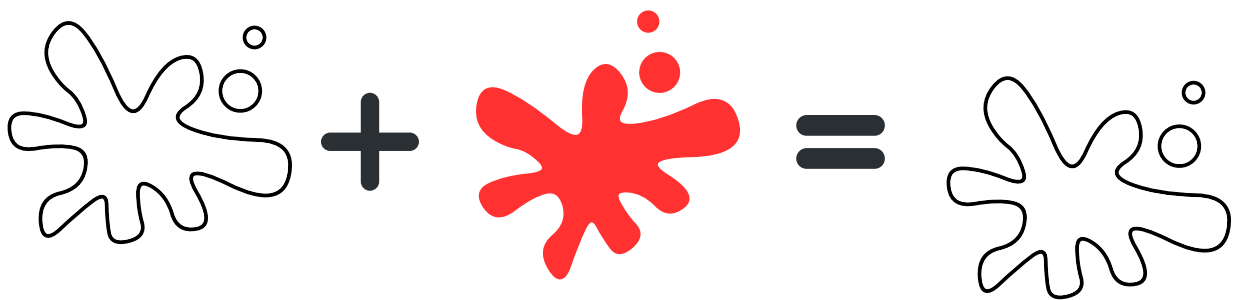

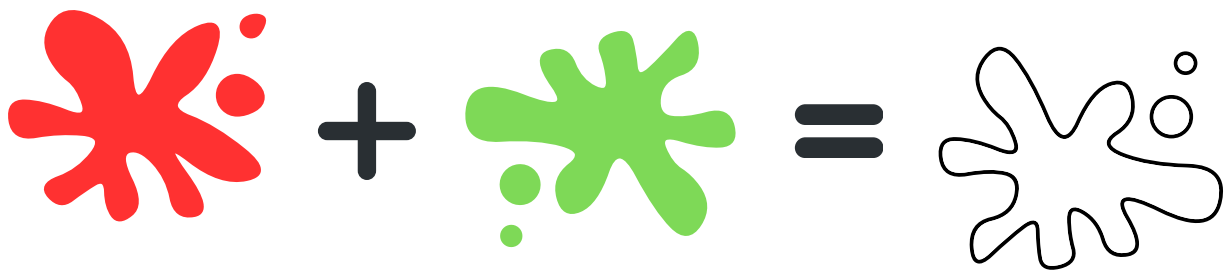

Als je deze kleuren met elkaar combineert krijg je wit.

Zwart is officieel geen kleur, maar juist de afwezigheid van kleur. Alle kleuren worden door zwart geabsorbeerd.

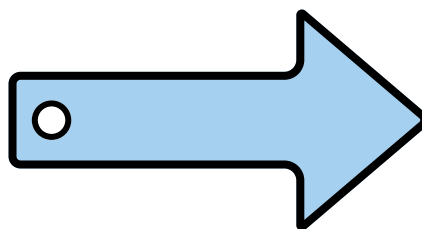

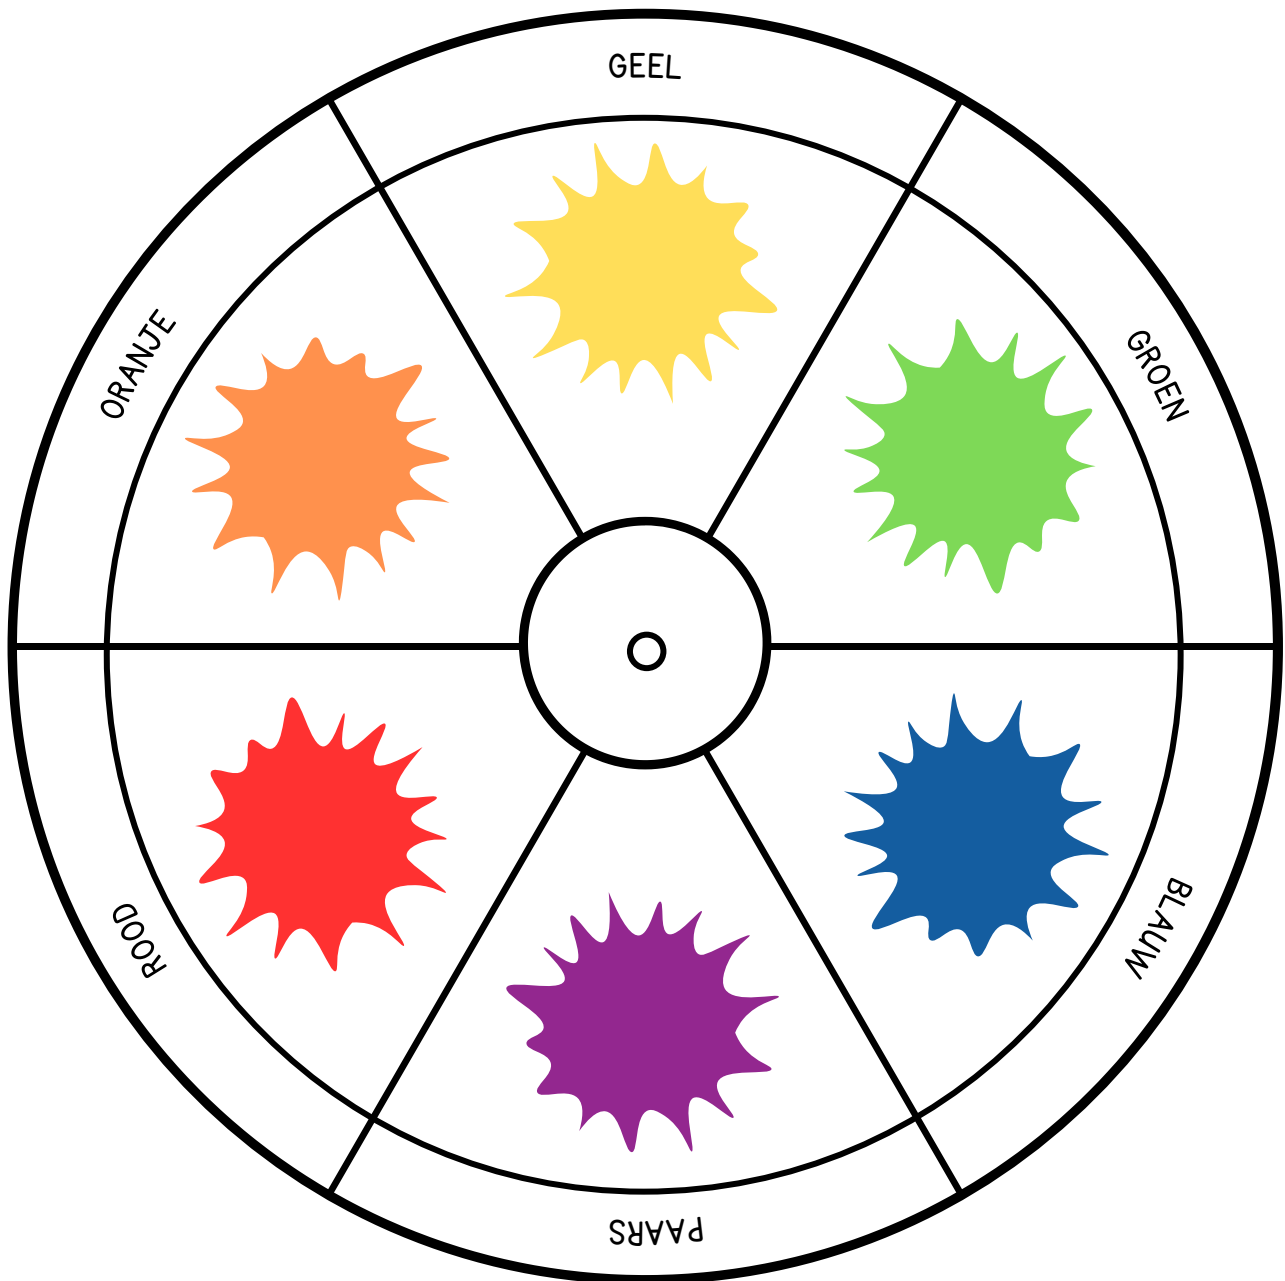

KLEUREN MENGEN

Meng de kleuren met elkaar en kleur de lege vlek in.

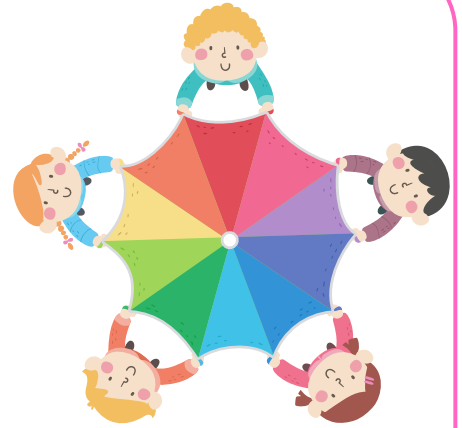

KLEURENWIJEL

Knip het wiel en de pijl uit en bevestig de pijl met een pin in het midden van de cirkel.

QUIZ

Beantwoord de vragen.
